Education 🎓

MEng Computer Science
2021-↺
University Of York

- Built a solid foundation of computer science by focusing on assembly,hardware design and so on!
- Have received Enigma scholarship from Dr. Max Noble (CEO of VISFO)

Side Projects ⊙

Blood Bank
2021
MERN Stack application

This app allows patients to request blood and donor to donate the blood. If a patient makes a blood donation request, we notify all nearest blood donors of the same type using email and text messages seeking help! We crossed over 1000 users and aided several patients who needed blood within a few months of launching it.

WiseCart- Ecommerce Website
2021
MERN Stack application

This advanced shopping e-commerce website allows users to buy/sell physical or digital goods. I've also developed an admin panel for this website that allows admin to process orders, manage shipping and even provide customer service.
